LOMBARD STREET and CHARING CROSS, LONDON.

Established 1782.

For Insuring every kind of Property in all parts of the World from Loss or Damage by Fire.

THE PROMPTITUDE AND LIBERALITY WITH WHICH its engagements are always met by this Company are well known, and the importance of its relations with the public may be estimated from the fact that since its establishment, it has paid more than Nine Millions Sterling in discharge of claims for Losses by Fire.

The security offered to the public by the Phœnix Office is unlimited, comprising in addition to the large invested capital of the Company the whole fortunes of numerous proprietors, composed of some of the most opulent merchants and others in the United Kingdom. Annual and short time Insurances are effected upon all kinds of property in Vancouver Island and British Columbia on the most favorable terms.

Prompt cash payment and full power to settle all losses and claims without referring to the Head Office in London.

THE telegraph brings us the encouraging piece of intelligence that the bill introduced into Congress to provide for the construction of a Northern Pacific Railroad from Lake Superior to Puget Sound has passed the lower House. This measure is much more modest in its demands than the bill that granted enormous subsidies in money and land to the Union Pacific and Central companies now engaged in the construction of a railroad across the continent. The last-mentioned measure was a stupendous "job." Practically the United States Government has paid for the building of that road, and in doing so has converted into millionaires a few speculators who three years ago could not have controlled $100,000. It is not probable that, having been once successfully humbugged with a railroad scheme, the U. S. government is disposed to submit quietly to the same operation in a similar direction. It is not surprising, therefore, to find the Northern Pacific Railroad Bill quite reasonable and respectable in its requirements. It does not ask for any subsidy either in money or in government bonds, or in any way to add to the public debt. Instead of requiring the issue of United States bonds, as heretofore, for which the Government has no security except a second mortgage and one-half the compensation for Government troops, it provides that the Government shall guarantee the interest only on a limited amount of the bonds of the Company, which does not exceed one-half the estimated cost of the road, which bonds are to be secured by a first mortgage on all its property, to be made to the Secretary of the Treasury of the United States, the Company being required to pay the principal and interest as they become due, to indemnify the United States for said guarantee of interest. All the compensation for transporting troops, supplies, munitions of war, mails, &c., is to be retained by the Government, for which along the line of this road the Government is now required to pay, as shown by the reports of the Quartermaster-General, over $6,000,000 per annum, being a sum very much larger than the annual amount of said guarantee, and is a further security to the Government. In case of any deficiency, the Secretary of the Treasury is empowered at any time to order one-third of the gross earnings of the road to be paid into the Treasury of the United States until all such deficiencies shall be made good. To secure the payment of the principal of said bonds, in addition to the first mortgage above mentioned, the Company is required to pay into the Treasury of the United States two per cent. of the gross earnings of the road, which is to be invested as a sinking fund for the redemption of said bonds at maturity. This is claimed to be the inauguration of a new policy, and while it does not increase the public debt or require the issue of Government bonds, it so extends the aid of the Government as to insure the prosecution of this enterprise, without danger of adding to the public burdens or hazarding the public credit. The questions remaining to be answered are, whether, in the event of the bill becoming law, capitalists will be found willing to invest their money in its construction—whether the inducements are sufficient to bring out their funds? and whether the Government aid proposed to be extended is sufficient to insure the immediate commencement of the work?

The Confederate Candidates for Victoria at the recent Election.

EDITOR BRITISH COLONIST:—In your issue of February 19th, in commenting on a letter signed "Confederate," you gave utterance to the following words:

"*Or to the shameful abandonment of the issue* (Confederation) *of one of the Confederate candidates for the city at the recent election.*"

Now, sir, I might charitably imagine that these words were uttered in a moment of mental aberration, or were designed to afford the Confederate candidates for the city an opportunity to refute the aspersion cast upon them by Mr Robson, of the New Westminster *Columbian*, at the close of the last election, and subsequently echoed in the Cariboo *Sentinel*. Nevertheless, sir, whoever the candidate may be to whom you have referred, I, on my part, plead "not guilty" to your charge, and I was one of the Confederate candidates for the city. Dr Powell was the other. Neither of us abandoned the issue. What is more, no Confederate or anti-Confederate acquainted with the circumstances would even for one moment treat your remark other than as a gratuitous aspersion, or interpret it as a blind to cover a retreat from the Confederate ranks, or accept it as an evidence of your intention to destroy, if possible, the political influence of the Confederate candidates with the object of supplying their places in their party with others more consonant with your views. It is only beyond this city that your aspersion might do any injury. Here, where all the circumstances are understood, I am satisfied it is interpreted against yourself; for I am vain enough to believe that the people who know me and the part that I have taken in Confederation, would never believe that I would abandon Confederation so long as there was the least possibility of success.

During the recent selection my utterances were bold, full, manly, without disguise or deception, and distinctly in favor of Confederation. The proof of the fact, it is true, cannot be as clearly set forth in the reports of the COLONIST of the meetings that I addressed; for after the report of my first speech appeared in the COLONIST, I found my utterances so distorted and misreported, though unintentionally, I believe, that I requested your late partner (knowing, as I did, that there was no competent short-hand or long-hand reporter attached to the COLONIST) not to report my speeches, for I preferred to go unreported rather than be misreported. He in a friendly way assented to my request; but, subsequently, in condensed notices of my remarks at a public meeting, and on nomination day, and at the close of what has been misnamed the poll, I found my utterances still more distorted than before, and remarks attributed to me that I never thought of, let alone uttered. I may here incidentally remark that in other countries where the press can afford to keep phonographic reporters, the speeches of public men go to the public in a better shape than when delivered; but in this colony, where there are no phonographic reporters attached to the press, public speakers have complained of being continually misreported by the press, and at the same time it would be useless to attempt correction, for it would have to be done on nearly every occasion when a discussion of any moment occurred. As a general rule, with rare exceptions, the press of the colony has, however, attempted with its imperfect reporters and limited space to report correctly, and may therefore be justly exonerated from intentional misreporting. In order, therefore, after this explanation, that I may place myself right before the public, and to disabuse your mind of the error into which I sincerely hope that you have been unwittingly led by hearsay—for you were not in the colony during the selection—I will produce an extract from my address to the electors at the recent selection. It expresses my opinion then on Confederation. It expresses my opinion now; for the circumstances are still unaltered. If any one thinks it means abandonment of Confederation, I cheerfully concede their right to do so, whilst I shall content myself with the assurance that the popular judgment will acquit me on reading it of any such charge. The extract alluded to is as follows:

"With respect to Confederation I entertain no Utopian ideas whatever; neither do I advocate it at any and all hazards to the Colony. But *I entertain the fixed belief* that if the Colony could be admitted into the Dominion on such equitable and beneficial terms as would change the prevailing despondency into the prospect of a brighter future,—cause our people to take a greater pride in the greatness and consolidation of British power on this continent,—warm them with a glow of patriotic satisfaction at being a self-governing member of the British nation,—and, at the same time, to be admitted on such terms as would increase its prosperity by stimulating our industry and augmenting our population,—and, over and above all, such as would ensure the progress and contentment of the people, I CONSIDER THAT IT WOULD BE YOUR DUTY AND MY DUTY, YOUR INTEREST AND MY INTEREST TO VOTE FOR CONFEDERATION. If, on the contrary, terms cannot be made with Canada that would after due examination produce a well-grounded belief in the minds of the people that it would be to their interest to become a member of the Dominion, I would promptly resist and strenuously oppose Confederation. But before the question can be FINALLY determined either for or against Confederation, our Government will have to open and conclude negotiations as to the terms. Owing, however, to the Imperial Government withdrawing, at the instance of the Hudson Bay Company, from the original compact for the transfer of the Northwest territory and Rupert's Land to Canada, and by substituting under the sanction of an Imperial Act passed near the close of the last session of the Imperial Parliament new and objectionable terms to the pecuniary advantage of the Hudson Bay Company, calculated to cause a revulsion of public feeling in Canada, it is undetermined whether the Canadian Parliament will sanction the transfer of the Northwest territory. Consequently negotiations as to the terms on which this Colony may be admitted into the Dominion will have to remain in abeyance till it is decided whether the Northwest territory will or will not be transferred to Canada. *Under such circumstances the delay in the solution of the question depends on Canada*; and in the meantime whilst the question remains in abeyance I consider it the duty of every one who has the interest of the Colony to undertake such reforms as are attainable and within our reach."

Now, sir, if I understand the meaning of words and sentences, I said, in the above extract to the electors; firstly, that I was in favor of Confederation on equitable and beneficial terms, and on none other; secondly, that until our Government opened and concluded negotiations as to the terms, the people would not be in a position to *finally* determine whether Confederation would be for the benefit of the Colony or not; thirdly, that Canada refused to negotiate terms of admission or not; thirdly, that Canada refused to negotiate terms of admission till it had been determined whether the Northwest Territory would be transferred or not; fourthly, that till Canada was ready to negotiate terms, the *solution* of the question of Confederation must remain in abeyance. I challenge any one to find even the color of abandonment in either of these propositions. On the contrary they contain a truthful statement explaining the real state of the issue in a manner suitable to the character of a public man soliciting the suffrages of a free people. Besides, my position as expressed above and taken up by me, was in strict accordance with the policy and action of the Confederate party from its inception. The first resolution of the Legislative Council, and the resolutions of the public meetings of Victoria, Cariboo, New Westminster, Yale, Lytton, and the Yale Convention, and the utterances of the press were distinctly and unequivocally in favor of Confederation on fair and equitable terms. All that has hitherto been done by the Confederate party has been done with the object of inducing our Government and Canada to negotiate the terms, so that the people may have a full and fair opportunity to decide whether the terms of admission would contribute to the prosperity of the Colony or not. The Confederate party, as I interpret its policy, want to know whether British Columbia can be admitted into the Dominion on equitable and beneficial terms. No Confederate desires to join Canada except on such terms. The real question, therefore, before the Confederate party at the last selection was: "Are you in favor of negotiations with Canada to determine on what terms the Colony may be admitted?" I told the party and the public that I was in favor of negotiations whenever Canada was ready; but that Canada was unwilling to entertain the question till the Northwest Territory question was settled. Where, sir, I ask, is the abandonment of the issue in this position? It is only a misconception or misrepresentation of language to call it abandonment. When a general retires with his army to winter-quarters no one charges him with abandoning the war. When Messrs. McDougall and Cartier returned recently from England without finally adjusting the Northwest Territory question, because the new Ministry were unprepared to negotiate, the Canadian government did not abandon the issue; but the solution of the question was merely delayed. In like manner, the solution of the question of Confederation here is merely delayed till Canada is willing to negotiate terms.

When the Confederate party in New Brunswick appealed to the country in two general elections, it had the terms of Confederation agreed upon at the Quebec Conference by the delegates of the respective governments. Here the case is quite different. There were no terms to lay before the people at the last election. Canada was unwilling to negotiate terms till the North West Territory question under the new phase that it had assumed had been determined. I told the electors so, and advised them not to delay other necessary Reforms because Canada was unprepared to negotiate terms, but to proceed with such reforms as were attainable and within our reach, and when Canada became ready to negotiate, the question of Confederation could be finally determined, and not till then. If there were an election to-day, I would hold the same position, for the circumstances are unaltered, and if any one wished to denominate it abandonment of Confederation, I would cheerfully concede to him the privilege of doing so.

My somewhat lengthy explanation, sir, will I hope rebut the assertions of the *Columbian*, correct the unintentionally erroneous remarks of the *Sentinel*, and satisfy you, I trust, that there was no abandonment of Confederation by one of the Confederate candidates for this city at the last election."

A STRANGE CUSTOMER—Yesterday, at the Police Court, appeared a tall, unshaven and unshorn individual bearing the name of Alfred Waterhouse—his appearance indicating that, notwithstanding his name, his acquaintance with the aqueous element, either for internal or external use, is of rather an ancient date. Alfred was charged with invading the premises of Mrs G. E. Nias, at Beacon Hill, and attempting to force his way through a window with an axe or club at the highly seasonable hour of two o'clock on Monday morning.

Judge Pemberton—Well, how do you plead, sir?

Prisoner—I believe I crawled in through a fence. Sorry for it, though. Wish I had not done it.

Sergeant Bowden—This man has been lounging here for three or four months doing nothing. He has about $1500 in the bank.

Judge Pemberton—Have you any one who can give you a character?

Prisoner—N-n-o; I guess not. Not any one in partik'ler. No!

Judge Pemberton—Can you get any one to go your security that you will keep the peace?

Prisoner—I guess I can keep the pieces if I want to without security; and if I break the pieces, why, you can catch me before I get off the Island, I guess, can't you?

Judge Pemberton—I think so. I'll try, at any rate.

Office McMillan—This man has lived isolated for a long time. His disposition is rather peculiar.

Judge Pemberton—I should say it is. I will remand you for three days, Waterhouse; in the meantime the police will make inquiries as to your character.

Exit Alfred, looking unhappy.

LEGISLATIVE COUNCIL, YESTERDAY—Mr. Robson brought in a Report and a Bill from the Select Committee on the Supreme Courts. The Report was received and laid on the table, and ordered to be taken up to-morrow. Mr Ring gave notice of resolution for Revision and Consolidation of the Laws of the United Colony. Dr. Helmcken gave notice of motion for enquiry relating to disposition of fees received in the Supreme Court. Mr. Walkem, for leave to bring in a bill relative to the taking of evidence in certain cases; also, a Bill on the Law of Replevin. Mr. Holbrook's motion on mode of procedure with private bills was carried. The Common Schools Bill, after some trifling amendments, passed through committee; ordered for third reading to-morrow. The Governor, in Message No. 10, sent down returns respecting schools, called for on 12th January last. The St. Andrew's Church Incorporation Bill gave rise to a lengthy debate, but was ultimately read a second time; committed in turn. The Road Bill was read a second time, and committed in turn. The Drawbacks Bill passed through committee; third reading for Thursday. Mining Bill comes up to-morrow. The Council adjourned till 11 a.m. to-day.

THERE is in San Francisco a middle-aged man, who a year since was at work by the month as a mechanic, and not worth a dollar. To-day he is worth at least $1,000,000 in hard coin, and his income from one mine alone is over $1,500 per day. He is investing his money in San Francisco real estate. The other day a friend was joking him on the subject of marriage, remarking that he could now marry any young lady in San Francisco, to which he replied: "Well, I knew a gal out West who was willing to marry me when I had't a cent, and now I'm able, I'm going to marry her."

WHALE OIL.—Mr. Dawson's schooner Kate arrived from the Gulf of Georgia yesterday with 2400 gallons of whale oil, consigned to Lowe Bros. Mr. Dawson, we learn, designs establishing his station on Cortez Island, nearly on a line with the mouth of Bute Inlet, in the vicinity of which he anticipates a good "catch" during the coming season.

AN unfortunate man applied for work at the Freeport Mill, near Seattle, on Monday, was taken in, and before the lapse of one hour had his right hand sawed completely off!

WE regret to observe by the following resolution passed last evening, that our City Fathers are inclined to take the peculiar mode of doing business in the Legislative Council to heart. We would suggest, (for we fear the consequences of coming between two august bodies such as the Legislative Council and the Municipal Council,) that a little patience and a mutual desire to come to an understanding on the matters of difference between them, would do much to avoid an estrangement which we should sincerely deplore. Cannot a conference be held? *Resolved*,—That until the Municipal Council have reason to believe that they will be sustained in their efforts to improve the streets of the City, by the Legislative Council, in granting them increased powers to enable them to meet the expenses connected therewith, that the said works be stopped on Saturday the 27th inst.

LEECH RIVER—Callaghan, one of the men preparing the ground for the hydraulic claim, returned on Monday from the river. The snow is reported to be entirely gone and all the heaviest work completed. The flume on the Government ditch has been repaired for 360 feet, and is now carrying 200 inches of water. Besides this the whole of the timber is cut for the flume to supply water to the diggings, and the ground itself, for 400 feet long and 100 feet wide, partially cleared for washing. This is indeed working in earnest. The most gratifying news brought by Callaghan is that in some further prospecting this last week as high as $3 was got in one pan from the bank selected for piping. In a fortnight from Monday next it is expected the work will be completed.

FROM PORTLAND.—The propeller George S. Wright, Capt. Langdon, arrived from Portland at 3½ o'clock yesterday morning, bringing 41 passengers, 103 head of sheep and a full freight of Oregon produce for Victoria consignees. Among the passengers appear the names of Generals Blake and Whittier, Cols. Reno and Platt, Major Allen, Capt Ramsay, C. A. Gillingham Esq., and a detachment of U. S. soldiers. The military gentlemen belong to the U. S. army, and are on their way for Sitka, for which port the G. S. Wright will sail to-day. Mr Frank Tarbell, Purser, has our thanks for the customary favors.

THE VICTORIA WHALING ADVENTURER'S EXPEDITION—Capt. Roys, has loaded and tested his bombs, and expects to sail in the steamer Emma, on Tuesday next, for Barclay Sound, off the mouth of which it is his intention to cruise in search of the cleaginous monsters of the deep. The expedition is provided with every appliance necessary for the successful prosecution of whaling, and a good report, will, no doubt, soon be heard from it.

IMPORTANT TO MILL OWNERS—STUMPAGE REDUCED.—Hon. Alvan Flanders has forwarded a dispatch from Washington City, a copy of which we have been shown. It is to this effect: "The rate of stumpage has been fixed not to exceed twenty-five cents per thousand." This is good news to our lumbermen generally, and Mr. Flanders is entitled to their thanks for his prompt action in the matter.—*Seattle Intelligencer.*

CLOSING SALE.—Mr. McCrea will hold his last store sale at his rooms this morning, commencing at 11 o'clock. A one-fourth interest in the Davis claim will also be disposed of. The goods comprise a large and varied assortment and the sale will be one of the heaviest that has taken place here since the old Free Port days.

SERIOUS TROUBLE.—F. Mitchell, who for several years kept a dry goods store on Government street, and for some months has been similarly engaged at San Francisco, was arrested on the 7th inst. in the latter city, for an alleged outrage on a girl fifteen years of age, who was employed in his store.

THE Eliza Anderson arrived from Puget Sound at 10 yesterday morning. She brought 20 passengers, 8 head of cattle and 200 head of sheep. The Anderson will sail at noon to-day, for Olympia and way ports.

AN Express, but no mail, came through by the Wright yesterday. The Wright connected at Portland with the Continental from San Francisco.

THE Alaska Territorial Bill—which provided that section with a form of government similar to that of Washington Territory—has been lost in the United States Congress. Alaska, therefore, remains under military rule.

NAVAL—H.M.S. Malacca has gone on from Callao in search of the P. S. N. Co.'s steamer Arica, supposed to be lost or in distress.

FELL'S COFFEE has become the favorite Colonial beverage, and is to be found on every breakfast table from Victoria to the foot of the Rocky Mountains. *

THE U. S. revenue cutter Lincoln, Capt Selden, is expected here on the 1st March from San Francisco.

THE H. B. Co.'s bark Princess Royal, hence, arrived at Valparaiso January 8th.

THE G. S. Wright sails for Sitka at noon to-day.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Europe.

HAVANA, Feb 21.—Governor Dulce has issued another proclamation offering forgiveness to those leaving the cause of the insurgents, excepting the leaders. An American, who attempted to leave without a passport, was detained by the authorities. The Diario says the insurgents in the Chief Jurisdiction at Colon have surrendered.

Advices from Trinidad report several encounters in that vicinity; Col Schmidt, leading the insurgent forces, was wounded, and six Mexicans and three others were killed; the forces defending Puerto Principe number 3000. The *Temps* says the insurgents have been totally defeated near Villa Clara, and considers the insurrection ended in that part of the island. It is believed that Lopez has gone to Bolivia on board an American man-of-war. Ascension was occupied by the allies, Jan 5th.

LONDON, Feb 19.—The *Times* is reconciled to the rejection of the Alabama treaty because it contained no definite basis of adjustment. It says England has done its best—it has gone to the verge of national honor, and must now await Grant's proposals.

LONDON, Feb 19.—The *Post* (conservative) regrets the rejection of the Alabama treaty only on account of the delay which it will cause in the restoration of friendly relations between England and America.

The *Times* says, the present treaty testifies the amity of England, while its failure does not endanger friendship.

The *Standard* regrets the rejection. The advances for a new treaty must come from the United States. England is now unfettered from concession, and will only treat hereafter on terms of absolute equality between the two countries. This will serve as a warning for the arranging of the points of the new Convention.

California.

SAN FRANCISCO, Feb 22. — Yesterday morning as the bark Katusoff was proceeding to sea, she came in collision with the ship Coquimbo. The head gear of the Coquimbo was carried away and she will require considerable repairs.

Second Despatch.

Eastern States.

NEW YORK, Feb. 22.—St. Thomas dates of 4th state that the people there still hope for annexation to the United States.

The *Herald* says Grant has been more communicative; he expressed himself freely as regards the composition of the Cabinet, saying he would invite civilians to fill all Cabinet positions. If any selections do not prove judicious he will correct mistakes by making second or third selections if necessary.

CHICAGO, Feb. 22.—The *Tribune's* special says the Senators from the Pacific slope oppose the San Juan boundary treaty. They consider the former treaty explicit, and that we should go to war rather than admit the claim on which this treaty is based.

WASHINGTON, Feb. 22—The President sent in his veto of the Copper Tariff Bill today. He objects generally to the operation of the bill, and says that it would diminish the public receipts and prohibit the importation of copper and greatly increase the price of blue vitriol

NEW YORK, Feb. 22—Washington's Birthday was observed as a legal holiday. Very little business was done.

NEW YORK, Feb. 22—The steamer Mississippi arrived yesterday. She brought Bliss and Masterman, the recent prisoners of Lopez. Bliss states that they were arrested on a charge made by the brother of Lopez, to attract attention from himself, he having been detected in robbing the National treasury. Bliss was examined before a military tribunal and subjected to repeated tortures. When finally released they were compelled to attest the truth of the statement extorted from them in the presence of the United States naval officers. Lopez is believed to be entrenched in a mountain pass.

NEW YORK, Feb. 22—The Herald urges a settlement of the trouble with Mexico by annexation to the United States, one of the results of which, it thinks, would be the preventing of any isthmus lying between Tehauntepec and Darien falling into the hands of England or France.

Cuba.

HAVANA, Feb. 21—The seventh battalion of volunteers, a portion of the regular garrison of the city, yesterday sent a deputation to Gen. Dulce demanding that vigorous measures be resorted to against rebels when relieved from duty. The soldiers made demonstrations which caused great excitement. To-day the agitation was renewed. The volunteers sent another committee to General Dulce reiterating their demand for severe measures. He replied firmly that he could not permit any interference with political or military plans of government, but he had resolved to effect the pacification of the islands within the limits of the law. In this determination he stands firm. Troops continue to arrive from Spain.

Japan.

A Japan letter of December 22d says the Mikado retains ex-Lieut. Grisnell as American Chief of Bureau. He has appointed General Paul Frank, formerly of the United States army, as Adjutant-in-Chief of the Japanese military forces, with a salary of $12,000 a year. The English and French representatives have protested against these appointments, but were met by the reply that Japan is an independent nation and does not recognise their right to question or dictate its policy.

Europe.

CALLEA, Belgium, Feb. 21—The papers say the health of the French Prince Imperial is failing. Napoleon despairs of making him his successor.

LONDON, Feb 21—The Beronamord has sailed from Bremen, having gone on the Polar expedition.

LONDON, Feb. 22—An Athens despatch announces that the Greek Ministry has been dissolved. An election for a new Legislature will be held in May.

In the House of Commons, in reply to an inquiry, Fortescue said the Government proposed to release 45 Fenians convicted of treason last year, including several laborers.

Baron Lionel de Rothschild, a Liberal, is elected to Parliament from London city, in place of Bell, Conservative.

DUBLIN, Feb. 25—Costello, one of the Fenian prisoners, has been liberated.

CONSTANTINOPLE, Feb. 22—Decrees and orders recently issued against Greece have been revoked. The Turkish ports are again thrown open to Greek ships.

MADRID, Feb. 22—The press of the country urge on the provisional government the necessity of preserving friendship with the United States.

Third Despatch.

WASHINGTON, Feb. 23.—The removal of Generals Halleck and Kirkham will occur soon after the inauguration. General Ord will probably command the Pacific division. General Grant intends to visit California the coming summer. Gen. A. C Cook, present Minister to the Sandwich Islands, is mentioned as likely to succeed Mr. Miller in the Collectorship. The English party have returned from Alta Vela, reporting that the guano there is worthless.

NEW YORK, Feb. 23.—The Herald's Havana special states that no further military or field operations will be attempted by the Spaniards, but all fortified points will be occupied by garrisons. An American blockade runner has successfully landed her cargo for the insurgents. Two thousand Cubans have revolted at Palma, near Cardenas. A Spanish gunboat has been captured by revolutionists near Manzanillo. An attack on Puerto Principe is delayed on account of the women and children.

South America.

The *Herald's* Rio Janeiro letter of Jan. 20th says Angostura surrendered Dec 30th. The garrison are marching out with the honors of war. Seventy-five guns were captured.

Mexico.

HAVANA, Feb 23.—Further advices from Mexico represent a disgraceful state of affairs at the capital. Tejado is reported as against the ingress of foreigners, and particularly of Americans. He is strongly of opinion that the government is imbecile and that the ministers are corruptly making money and sending it to foreign countries. Rosecrans attempted to influence him to take measures for the improvement of the country which he looks upon as in a suffering condition. It is reported that Englishmen and Americans are negotiating in the United States for the settlement of English claims. The United States are to take the Mexican Territory into consideration therefore.

MADRID, Feb 23.—In the Cortes yesterday the Prime Minister announced the resignation of the Provisional Government. Gen Prim assured the House that the late dynasty would never reascend the throne.

Oregon.

STEAMSHIP MOVEMENTS.

PORTLAND, Feb 23.—Steamer Active arrived this morning and sails to-morrow for Victoria.

The Continental sails for San Francisco to-morrow at 3 p. m.

The Oriflamme sails from San Francisco for Portland next Saturday with Ben. Holladay as passenger.

WHEN YOU FEEL a cough or bronchial affection creeping on the lungs, take AYER'S CHERRY PECTORAL, and cure it before it becomes incurable. *

Keep Disease at Bay.

Invalids, broken down in health and spirits by Chronic Dyspepsia, or suffering from the terrible exhaustion which follows the attacks of acute disease, the testimony of thousands who have been raised as by a miracle from a similar state of prostration, by HOSTETTER'S STOMACH BITTERS, is a sure guarantee that by the same means you too may be strengthened and restored. But to those who stand in peril of epidemics, to all who, by reason of exposure, privations, and uncongenial climate or unhealthy pursuits, may at any moment be stricken down, this paragraph is most particularly and emphatically addressed. You, who are thus situated, are proffered an absolute safeguard against the danger that menaces you. Tone and regulate the system with this harmless medicinal Stimulant and Alterative, and you will be forearmed against the maladies whose seed float around you in the air unseen. HOSTETTER'S STOMACH BITTER'S are not only a standard Tonic and Alterative throughout the United States but they are accredited by the certificates of the most distinguished citizens of the Union, to the people of all other lands. In Canada, Australia and the West Indies, they are gradually taking the place of all other stomachics, whether native or foreign, and as surely as truth is progressive and demonstration overthrows doubt, they will eventually supersede every other Invigorant and Restorative now employed in medicinal practice.

"BEAUTY is but skin deep," says the proverb; and the beautifying and preserving its charms of course becomes an object of paramount necessity and importance—the chief difficulty hitherto felt, having been to discover a preparation which should heighten without injuring its delicacy, and at once embellish and perpetuate the charms of female loveliness. The fortunate discovery of ROWLANDS' KALYDOR has proved the possibility of achieving both results, and 18[illegible] *removing all imperfections of the skin, eradicating all traces of Sun-burn, Tan, Freckles, Lips parched and swollen*, and every other *cutaneous disfigurement*, this invaluable preparation offers the most delightful remedy yet offered to the public, or patronized by the Fair Sex themselves. *

A LADY OF HIGH RANK,

Wife of one of the leading statesmen of England, says: "I have duly received the case of MURRAY & LANMAN'S FLORIDA WATER, which you were kind enough to send me. I have tested its merits, and find it a most delightful perfume, more delicate and flowerlike in its aroma than any other toilet preparation I have before used."

☞ Purchasers should be particular to ask for the Florida Water prepared by Lanman & Kemp, New York, who are the sole proprietors of the genuine perfume. 541.

HOLLOWAY'S OINTMENT AND PILLS.—A certain remedy for diseases of the skin, ringworm, scurvy, scrofula, or king's evil, sore heads, and the most inveterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are eradicated from the system, and a lasting cure is obtained. They are efficacious in the cure of tumours, burns, scalds, glandular swellings, ulcerous wounds, rheumatism, contracted and stiff joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only but complete and permanent. 34

HOSTETTER'S CELEBRATED STOMACH BITTERS!

A PURE AND POWERFUL TONIC

CORRECTIVE AND ALTERATIVE

Of Wonderful Efficacy in Diseases OF THE STOMACH, LIVER AND BOWELS.

PROTECTIVE PROPERTIES.

Prevents Fever and Ague and Bilious Remittent Fever. Fortifies the System against Miasma and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels; Stendies the Nerves and Tends to Prolong Life.

REMEDIAL PROPERTIES.

Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent Fevers, Sea Sickness, Cramps and Spasms, and all complaints of either sex arising from Bodily Weaknesses, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produce effects which must be experienced or witnessed before they can be fully appreciated.

Persons of feeble habit, liable to Nervous Attacks, Lowness of Spirits, and Fits of Languor, find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive, and from both sexes.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it if under apprehension of an attack, escape the scourge; and thousand who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretive organs.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWNE'S CHLORODYNE—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not supply a want and fill a place."

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay. "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the inventor was DELIBERATELY UNTRUE.

CURES AND COMFORT FOR THE BED-RIDDEN.

—BY—

Holloway's Ointment.

THIS wonderful Ointment acts like magic in relieving curing old sores, wounds, bad legs, ulcers and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures It heals by cleansing all animal fluids with which it comes in contact, and thereby promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflamation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible spe...

Diptheria, Bronchitis, Sore Throats, Coughs and Colds

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained

Dropsical Swellings.

Beware of this dangerous and stealthy complaint which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach, therefore set to work earnestly by taking Holloway's famous Pills according to the printed instructions and rubbing the Ointment very effectively over the pit of the stomach and right side where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the knowledge of the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's but once with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone

Disorders of the Kidneys, Stone and Gravel

Are immediately relieved and ultimately cured if this Ointment be well rubbed twice a day, into the small of the back, over the regions of the kidneys to which it will gradually penetrate and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Cancers,	Scalds,
Bad Breasts,	Contracted and	Sore Nipples,
Burns,	Stiff Joints,	Sore Throats,
Bunions	Elephantiasis,	Skin Diseases
Bite of Moschetos	Fistulas,	Scurvy,

TO THE UNFORTUNATE

NEW REMEDIES, NEW REMEDIES.

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR Commercial, San Francisco, Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis, in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

DR. GIBBON has the pleasure of announcing that he has returned to this State, after an absence of one year during which time he visited all the principal Hospitals of Europe, among them those of Dublin, London and Paris. The following celebrated Hospitals of London are among those visited by the Doctor: Guy's, High street, Borough; St. Bartholomew's, Smithfield, St. Luke's, Old street, St. Mary's, Camb. Place, P..., Lock, Harrow Road; University, Gower street; Westminster, Broad Sanctuary; Charing Cross, Agar street, Strand; London, Whitechapel Road; Royal Free, Gray's Inn Road; King's College, Portugal street

DR. GIBBON has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system. Look at their pallid, emaciated and disfigured faces, and their broken down constitutions, disqualifying them from the happiness of marriage or of the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible, life-destroying maladies—see that they are cared for, and cured before it be too late. Send them immediately to DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those afflicted, or to those who are interested in the welfare of their frends, to be careful of the many pretended Doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful, and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emission the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz.: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes; pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN.

Of those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.

DR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Cured at Home.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use. By enclosing $15 in currency or $10 in coin, in a registered letter through the Post office or through Wells Fargo & Co., a package of medicine will be forwarded by express to any part of the Pacific Coast.

Address Dr J. F. Gibbon, 616 Kearney street, corner Commercial, San Francisco.—Post office box 252.

Remember to put BOX 252 on the letter.

Consultations FREE.

THE GRAND PROMOTERS OF HEALTH.

HOLLOWAY'S PILLS.

The grand secret of attaining happiness is to secure good health, without which life is stripped of all its pleasures. The first irregularity of any function should be checked and set right by appropriate doses of these fine purifying Pills, which strengthen the system by thoroughly cleansing the blood from all impurities. They balance disordered action, remove the cause of disturbance and restore its normal and natural power to every organ, without inconvenience, pain or any other drawback

Derangement of the Bowels, Liver and Stomach Complaints.

This medicine is so well known in every part of the world, and the cures effected by its use are so wonderful as to astonish every one. Its pre-eminence as a remedy for billious and liver complaints and derangements of the stomach and bowels, is no longer a matter of dispute or doubt. In these diseases the beneficial effects of Holloway's invaluable Pills are so permanent and extensive, that the whole system is renovated, the organs of digestion strengthened, and full and easy assimilation protected, so that both physical and moral energies are increased

Determination of Blood to the Head.

This is generally occasioned by some irregularity of the stomach and bowels, which, if not quickly attended to, frequently terminates fatally. A few doses of these famous Pills never fail to give tone to the stomach regularity to the secretions, and purity to the fluids. Vertical dimness of sight and other indications of approaching apoplexy, are entirely dissipated by a course of this admirable medicine

The Female's Best Friend

For all debilitating disorders peculiar to the sex and in every contingency perilous to the life of women, youthful or aged, married or single, this mild but speedy remedy is recommended with friendly earnestness. It will correct all functional derangements to which they are subject.

Scrofula and all Skin Diseases.

For all skin diseases, however inveterate, these medicines are a sovereign remedy. While the Pills act upon the blood, which they purify, the ointment passes through the pores of the skin, and cleanses every structure, as water saturates the soil or as salt penetrates meat. The whole physical machinery is thus rendered healthy, regular and vigorous

Coughs, Colds and Asthmas.

No medicine will cure colds of long duration or such as are settled upon the chest so quickly as these famous Pills. Even in cases where the first stage of asthmas has appeared these Pills may be relied on as a certain and never failing remedy, particularly if the Ointment be simultaneously well rubbed into the chest and throat night and morning.

Indigestion—Billious Headache.

These complaints may sometimes be considered trifling but it should be borne in mind that by inattention and neglect, they often end most seriously. Give early thought to a deranged stomach take Holloway's Pills, rub his celebrated Ointment over the pit of the stomach, and you will shortly perceive a change for the better in your digestion, spirits, appetite, strength and energy. The improvement, though it may be gradual will be thorough and lasting.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Scrofula King Evil
Asthma	Fevers of all kinds	Sore Throats
Bilious Complaints	Fits	Stone and Gravel
Blotches on the Skin	Gout	Secondary Symptoms

EXTRAORDINARY CURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturist and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir,—I have recently suffered much from a most violent cough, proceeding from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken. Having seen the good effects of your Balsam of Aniseed in several members of my family, I purchased a small bottle, and, when going to bed at night took a teaspoonful in two tablespoonfuls of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

"I am, dear Sir, yours very truly,

"WM. BOARDS.

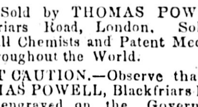

"To Mr. Thos. Powell.

POWELL'S BALSAM OF ANISEED,

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon

PARIS.

THESE different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quack medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the **Academy of Medicine** and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorised by the Government. This fact must be a guarantee for the excellence of **Messrs. Grimault et Co.'s** Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil and has been found most beneficial in **Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite.** It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in **Diseases of the Skin.** Further, it will be found to be of great benefit to young children subject to **Humors and Obstructions of the Glands.**

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of **Phthisis** and other **Diseases of the Lungs.** It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of **Grimault & Co.** is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangements of the digestive organs, such as

Gastritis,

Gastralgia,

Long and Laborious Digestion,

Wind in the Stomach and Bowels,

Emaciation,

Jaundice, and

Complaints of the Liver & Loins

NERVOUS HEADACHE, NEURALGIA, DIARRHŒA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazils has been employed since time immemorial to cure **Inflammation of the Bowels.** It has proved to be of the greatest service in cases of **Cholera,** as it is a preventive and a cure in cases of Diarrhœa.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegitalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris by the celebrated Dr Ricard, and found greatly superior to all hitherto known mineral remedies and Copabia and Cubebs. The injection is used in recent, and capsules in more chronic cases.

GENERAL DEPOTS:

In Victoria—Messrs. LANGLEY & CO.

In Paris—At Grimault & Co.'s 45 Rue Richelieu.

Ayer's CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, oppressed by the derangements, take Ayer's Pills, and see how directly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills, will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well-known public persons:

From a Forwarding Merchant of St. Louis, Feb 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR BRO. AYER: I cannot answer you *what* complaints I have *cured* with your Pills better than to say *all that we ever treat with a purgative medicine.* I place great dependence on that effectual cathartic in my daily contest with disease, and believing, as I do, that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst *headache* anybody can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once.

Yours with great respect, ED. W. PREBLE.

Clerk of Steamer Clarion.

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of *bilious complaints* than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for *bilious dysentery and diarrhœa.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and *purify the fountains of the blood.* JOHN G. MEACHAM, M. D

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe *costiveness* to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Stuart, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to *cleanse* the *stomach* and *expel worms.* They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hawkes, of the Methodist Epis. Church.

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating *neuralgic pains,* which ended in *chronic rheumatism.* Notwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec., 1855.

DR AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Price, 25 cents per Box, or 5 Boxes for $1.
